REASONS FOR ALLOWANCE

Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance: referring to claims 1 and 14, the specific limitation of a rack assembly including a display slidably attached to a first support arm and the second support arm, having a first rotation support bracket pivotally connected at a first end to the tray and slidably connected at a second end to the first slot, and a second rotation support bracket pivotally connected at a first end to the tray and slidably connected at a second end to the second slot, in combination with the rest of the elements or steps, are not taught or suggested by the prior art references. Claims 2-13 depend, either directly or indirectly, from claim 1 and claims 15-17 depend from claim 14. These claims are therefore allowable for at least the reasons provided above.

Likewise, method claim 18 includes the patentable limitation "pivotally mounting a first end of a first rotation support bracket to the tray and slidably mounting a second end of the first rotation support bracket to the first slot, pivotally mounting a first end of a second rotation support bracket to the tray and slidably mounting a second end of the second rotation support bracket to the second slot." These features, in combination with the rest of the elements or steps, are not taught or suggested by the prior art references. Claims 19 and 20 depend from claim 18 and are therefore allowable for at least the reasons provided above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
